

Quality Policy

Glazing Vision are technical experts in the design, manufacture and supply of architectural rooflights for residential and commercial buildings across the world. We are dedicated to manufacturing products of contemporary design and of the highest quality, to suit the individual needs of our customers.

We are committed to:

- Engaging with our staff, suppliers and customers to understand their needs and expectations
- Designing products to meet and exceed customer needs whilst complying with all relevant industry Codes and Standards
- Working together with partners around the world to offer our products into new markets and grow the business internationally
- Working with vetted and approved suppliers with the aim of improving relationships and performance delivery
- Establishing and monitoring annual quality objectives to help drive business improvements
- Actively supporting and involving all staff throughout the business to implement and improve our rigorous quality controls, maintaining a focus on 'right first time'
- The ongoing measuring, monitoring and reviewing of processes, including root cause analysis and implementation of corrective and preventative measures to demonstrate continual improvement and development of our processes, products and people
- Maintaining accreditation for our quality management system
